Waggener High School Official Directory 1959-1960

This is one of many sections that contain information, photos, newspaper articles, internet items, etc. of the St. Matthews area and especially of Waggener High School. Many of the items came from Al Ring's personal collections but many people have helped and I have tried to give credit where I can.

The purpose of this "collection" was to create the history of Waggener and the students and teachers who were there during my time. Being retired I now have time to do many of the things I have always wanted, this project is just one of them. The collection is continuing today, so if you should have old or new information on the St. Matthews area from 1950 to 1962 or Waggener High, please contact Al Ring.

All graphics have been improved to make the resolution as good as possible, but the reader should remember that many came from copies of old newspaper articles and photos. Credit to the source of the photos, etc. is provided whenever it was available. We realize that many items are not identified and regret that we weren't able to provide this information. As far as the newspaper articles that are not identified, 99% of them would have to be from one of three possible sources. The Courier-Journal, The Louisville Times or one of the Voice publications. Books that we have used for some information include, Randy, Cactus, Uncle, Ed and the Golden age of Louisville Television, Waggener High School Alumni Directory 1996, Waggener Traditional High School Alumni Directory 2007, Memories of Fontaine Ferry Park, St. Matthews The Crossroads of Beargrass by Samuel W. Thomas, St. Matthews, 25 Years a City Two Centuries a Community, St. Matthews 1960-1995, Waggener Lair's 1958 to 1962, The Holy Warrior, Muhammad Ali, Louisville's Own (An Illustrated Encyclopedia Of Louisville Area Recorded Pop Music From 1953 to 1983).

Please use this information as a reference tool only. If the reader uses any of the information for any purpose other than a reference tool, they should get permission from the source.

HISTORY OF WAGGENER

Waggener Junior High School was named in honor of Mayme Sweet Waggener, a well-known and beloved educator in the St. Matthews area from 1916 until her retirement in 1946. She began her teaching career in the Louisville schools, transferring to the county's Greathouse Elementary School in 1916. In 1918, she became principal there and served in that capacity for twenty-eight years.

Mrs. Waggener died in 1953, and on October 26, 1954, Waggener Junior High was dedicated to her memory.

Waggener is located on a 22-acre site and the original cost, exclusive of land, was over a million dollars. It was the first completely separated junior high school in the history of the Jefferson County education.

In 1957, when there was a 10th grade for the first time, the school's name was changed to Waggener High School. Today, in 1960, our first senior class will graduate. They have been accommodated in new yearly-completed wings since 1957.

Mr. John B. Lowe was Waggener's first principal. In 1959 Mr. Lowe was succeeded by Mr. Earl Duncan, assistant principal. The growth of Waggener necessitated the appointment of two assistant principals and four guidance counselors.

As of 1959 the enrollment was 2,530 which is three times as many as in 1954. The faculty has also tripled along with the enrollment.

Waggener High School is an accredited secondary school, member of the Southern Association of Colleges and Secondary Schools. It is an important part of the community of St. Matthews and gives promise of growing into one of the finest high schools in this part of the country.

MR. EARL DUNCAN

Mr. Duncan was born in Georgetown, Kentucky, on August 21, 1920. He graduated from Oxford High School in Scott County, and received his A.B. in education from Morehead. He also has his Masters degree from the University of Indiana.

In high school he was picked for the first all state basketball team picked by Earl Ruby in 1939. While at Morehead he became one of the best basketball players that has ever come from the state of Kentucky. One time he personally outscored the total opposition.

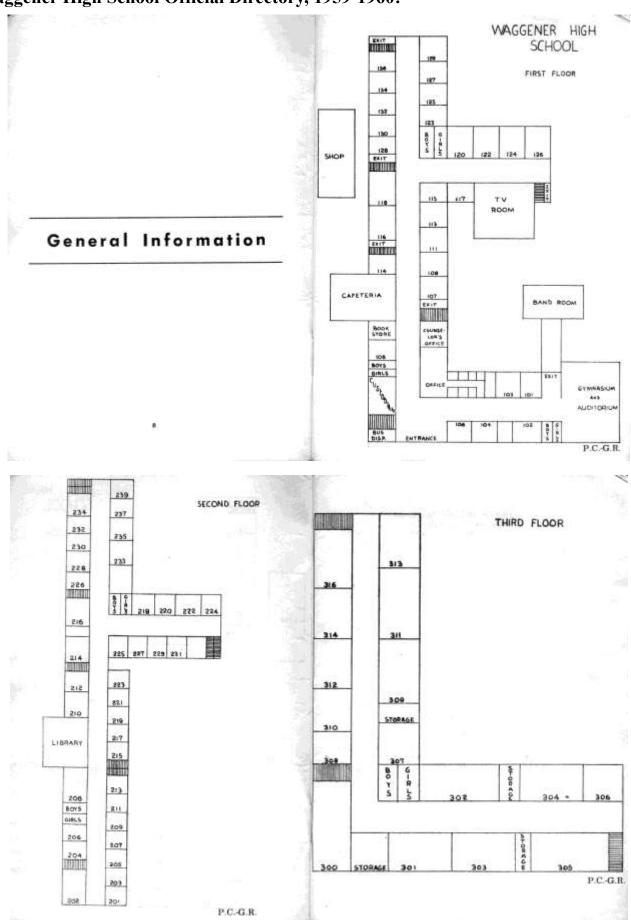

Mr. Duncan then entered the Marine Corps where he received his basic training at Paris Island and at Quantico Marine Base. He then went to Officers Candidate School. In 1943 Mr. Duncan transferred to Jefferson County as a teacher at Fern Creek High School. Mr. Duncan transferred to Jeffersontown High School for the year 1943-1944 where he was head basketball coach. In 1950 he was made head basetball coach where he coached two county champs. Mr. Duncan continued serving in this capacity until Waggener was opened in 1954. He became the boys' counselor at Waggener. In 1957 he became the assistant principal, and this year became principal.

Curriculum

GENERAL INFORMATION ON CURRICULUM

From year to year Waggener High School is constantly changing their program of curriculum. Revision and im-provements are being made.

In order for a student to meet graduation requirements he must complete at least 18 units of work over a four year period (grades 9-12). Certain subjects are required of all students. Additional subjects will be required if a student wishes to qualify for a particular occupational field, special training, or college entrance. Beyond these requirements a student may choose as elective subjects any additional subjects which will help him to reach his goal or add to his personal growth.

- A. 18 units are necessary for graduation: 11 required and 7 elective.
- B. Required units must be in the following fields:

 - 4 units of English 2 units of mathematics

 - 2 units of science 2 units of social studies, one of which must be United States history
 - 1 unit of health and physical education
- 4 units are required for 10th grade placement.
 - 8 units are required for 11th grade placement, 13 units are required for 12th grade placement.

A typical college program should include four years of English, at least two years each of science, mathematics, social studies, and foreign language. Major colleges and universities prefer four years of English, four years of science and four years of college preparatory mathematics, and they recommend two years or more of foreign language, and two years of social studies. Students should consult the catalogues of colleges of their choice for admission requirements. sion requirements.

Each student should plan his program around a core of subjects which apply more directly to a field of employment he plans to enter. All students in grades 9-12 are expected to enroll in 5 classes each year. Any student may combine four academic subjects with one of

the following to make a fifth subject: choral music, or-chestra, band, art, home economics, health and physical education, and industrial arts. Only those students having above average grades should enroll in 5 academic subjects.

17

TRACT PROGRAM

The Tract program plan of education was started at Waggener during the fall of 1959. Waggener does not have all of the programs that are offered. It has: the Advanced for the gifted students, the Superior for the above average students, and the Regular for the average and below average student. This plan of education was also started at the same time in most of the other. Deferm and below average student. This plan of education was also started at the same time in most of the other Jeffer-son County Schools. The main purpose of this program is to enable a pupil with varying degrees of ability to find his proper level of achievement. Each student is enrolled in one of the programs that is designed for his interest and abilities. The teachers, counselors, and principals with the interest of the student in mind decide which program is best for the student. With hard work a student may move from one program to another one.

THE CORE PROGRAM

The seventh and eighth grade core program at Wag-gener is a type of organization to gradually change the student from the grade school program to the high school

Under the core program all reading and writing subjects (literature, grammar, spelling, history, science, and health) are fused together in a three-hour period under one teacher. One major goal for the program is to provide the pupils with guidance and encouragement. This is on an individual and group basis, to develop their interests and initiative.

This program places emphasis on teacher-pupil plan-ning, individual and group participation, evaluation, work habits, and democratic living.

A pupil receives one grade for all the subjects included in core. The other subjects: mathematics, home economics, shop, physical education, band, art, and music,

are taught by special teachers of the subjects. The pupil receives separate grades in each of them

This year, the seventh and eighth grades at Waggener have adopted a new plan called the Exploratory Program. It takes up a one hour period for the pursuit of further knowledge on a topic of mutual interest among the students. The teacher is usually the core teacher, although it is not a continuation of core.

These programs at Waggener seem to be interesting and informative to all students taking part in them.

WAGGENER HIGH SCHOOL GUIDANCE DEPARTMENT

Waggener High School has a very excellent Guidance Department. Through a carefully planned system of individual and group guidance, students are helped in making necessary adjustments to the school's organization, pattern of studies, and activities. Counselors and teachers help students to study themselves, to understand their prob-lems, to be aware of both their strong and their weak points, and to work out appropriate plans for studies.

Our Guidance Department also includes a large library of college bulletins and guidebooks for students' use in choosing a college.

Waggener High School's Guidance Department Staff includes

Mrs. Dawson for 8th, 10th, and 12th grade girls Mrs. Hays for 7th, 9th, and 11th grade girls Mrs. Goodell for 7th grade boys

Mr. Aspy for 8th, 10th, and 12th grade boys Mr. Corey for 9th and 11th grade boys

These counselors alternate even and odd years so that they have the same groups of people each year. This system provides a better mutual understanding.

Such a program places added responsibility upon the student and parent to plan for the future and to use fore-sight in making intelligent and proper choices of curriculum and goals.

HEALTH AND PHYSICAL EDUCATION

One unit of health and physical education, taken in high school, is required for graduation. Physical educa-tion is offered in the eighth grade but must be taken again in the ninth unless the student is physically handicapped. A student who enrolled in Waggener after the ninth grade and doesn't already have one unit of health and physical education must obtain this before graduation.

In Physical Education the boys compete in speedball, touch football, wrestling, tumbling, basketball, volleyball, track and softball. The girls compete in volleyball, soccer, basketball, group games, folk dancing, and softball. A physical fitness test is administered at the end of the

The health course at Waggener strives toward various objectives. Some of these objectives are contained in the following principles:

The educated person understands the basic facts con-cerning health and disease.

The educated person protects his own health and that

of his dependents. The educated person works to improve the health of
